Aniheater

The new generation of heating lamps.

100%
MAINTENANCE
FREE

ANIHEATER
Supplied integrated in new cave with plastic curtain.

Advantages of Aniheater®

- Reducing energy
- Even distribution of heat
- Waterproof IPX9K Approved
- Long lifetime
- Low fire risk

100%
WATERPROOF

①

Fig 1. Control 2
Double contact aniheater.

②

Fig 2. Control 1
Single contact aniheater.

③

Fig 3. Aniheater comes in 3 variants 100-150-175 Watt.
Available with 2.4 m cable. Certifications: IP X9K.

ANIHEATER®

PRECISION FEEDING SYSTEMS

A step ahead to enhance productivity

Precision feeding system for sows and farrowing pen

GROUP HOUSING

- With 15-20 sows per pen
- Individual precision feeding per sow 24/7/365
- The OPTI model allows for additional mixing supplementation

FARROWING

- Precision feeding per sow 24/7/365
- Increased milk production
- No feed waste
- Clean troughs
- Larger litters at the next farrowing

GROW-TO-FINISH

- Weighing of feed quantity and the possibility of mixing multiple feed recipes at the feed level
- Individual and restrictive feeding of gilts

Feed & livestock management software

The starting point for developing Best Farm solutions is to save more of the weakest piglets in the farrowing pen.

All our products are therefore designed to nourish and warm the piglet right from the start.

Two factors which are absolutely decisive in reducing piglet mortality.

Photo of first piglet drinking of a
Pig-LET Starting December 2002
